DETAILED ACTION

Election/Restrictions

1. Upon initial review of the claims it appears that claims 1-15 differ in subject matter and therefore require a different search. In accordance with this a restriction is deemed proper.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-5, 14, 15 drawn to a subject matter wherein all interactions are constrained to one or more portions or regions of the display, which may display all or part of their related information classified in Class 345, subclass 781.

Group II. Claims 6-8, drawn to advertising system classified in Class 705, subclass 14.

Group III. Claims 9-13, drawn to incentive or promotion program classified in Class 705, subclass 14.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions Groups I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, while invention I has separate utility such as displaying data pixel wise, in which each pixel is additionally classified by meta data, invention II is directed to metering the number of pixels classified as advertisement, and invention III is directed to providing rewards to a player of a game. See MPEP § 806.05(d).

4. A telephone call was made to Michael Stuart on 01/08/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and divergent subject matter, and because the searches for the individual Groups are not coextensive, restriction for examination purposes as indicated is proper.
7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
